ACS DEMOGRAPHIC AND HOUSING ESTIMATES

TABLE ID: DP05
SURVEY/PROGRAM   American Community Survey
PRODUCT: ACS 5-Year Estimates Data Profiles

Note: The table shown may have been modified by user selections. Some information may be missing.

2019	Elon town, North Carolina
Label	Estimate
SEX AND AGE	
Total population	11,516
Male	4,759
Female	6,757
Sex ratio (males per 100 females)	70.4
Under 5 years	351
5 to 9 years	166
10 to 14 years	421
15 to 19 years	1,987
20 to 24 years	3,529
25 to 34 years	471
35 to 44 years	602
45 to 54 years	777
55 to 59 years	527
60 to 64 years	420
65 to 74 years	779
75 to 84 years	914
85 years and over	572
Median age (years)	22.0
Under 18 years	1,203
16 years and over	10,468
18 years and over	10,313
21 years and over	7,134
62 years and over	2,577
65 years and over	2,265
18 years and over	10,313
Male	4,244
Female	6,069
Sex ratio (males per 100 females)	69.9
65 years and over	2,265
Male	893
Female	1,372
Sex ratio (males per 100 females)	65.1
RACE	
Total population	11,516
One race	11,294
Two or more races	222
One race	11,294
White	9,938
Black or African American	826
American Indian and Alaska Native	4
Cherokee tribal grouping	0
Chippewa tribal grouping	0
Navajo tribal grouping	0
Sioux tribal grouping	0

Asian	353
Asian Indian	129
Chinese	29
Filipino	56
Japanese	19
Korean	58
Vietnamese	51
Other Asian	11
Native Hawaiian and Other Pacific Islander	0
Native Hawaiian	0
Guamanian or Chamorro	0
Samoan	0
Other Pacific Islander	0
Some other race	173
Two or more races	222
White and Black or African American	74
White and American Indian and Alaska Native	44
White and Asian	66
Black or African American and American Indian and Alaska Native	22
Race alone or in combination with one or more other races	
Total population	11,516
White	10,138
Black or African American	922
American Indian and Alaska Native	70
Asian	435
Native Hawaiian and Other Pacific Islander	0
Some other race	189
HISPANIC OR LATINO AND RACE	
Total population	11,516
Hispanic or Latino (of any race)	702
Mexican	558
Puerto Rican	31
Cuban	0
Other Hispanic or Latino	113
Not Hispanic or Latino	10,814
White alone	9,427
Black or African American alone	826
American Indian and Alaska Native alone	4
Asian alone	353
Native Hawaiian and Other Pacific Islander alone	0
Some other race alone	0
Two or more races	204
Two races including Some other race	0
Two races excluding Some other race, and Three or more races	204
Total housing units	3,674
CITIZEN, VOTING AGE POPULATION	
Citizen, 18 and over population	9,922
Male	4,081
Female	5,841

TABLE NOTES:
Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section. Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Source: U.S. Census Bureau, 2015-2019 American Community Survey 5-Year Estimates

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables. For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

The 2015-2019 American Community Survey (ACS) data generally reflect the September 2018 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances, the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineation lists due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
Explanation of Symbols: An "**" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution. An "***" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate. An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate. An "N" entry in the estimate and margin of error columns indicates that data for this geographic area

cannot be displayed because the number of sample cases is too small. An "(X)" means that the estimate is not applicable or not available.
